

Emergency Care Programs Competency Skills Sheet

IN Naloxone	Name _____ Provider# _____
Pass _____	Evaluator _____ Initials _____
Fail _____	Date _____ Start Time _____ End Time _____

	Points:	Possible	Awarded	Comments:
Utilizes proper PPE/BSI precautions	C			
Assures scene safety and establishes safe zone PRN	C			
Requests Law enforcement assistance PRN	1			
Assess airway and administers oxygen	C			
Requests ALS if necessary	1			
Assess for signs & symptoms of Opioid Overdose:				
*Altered Mental Status or Confusion	C			
*Respiratory Rate below 10/min	C			
*Pin-point Pupils	C			
*Cyanosis	1			
*Nausea / Vomiting	1			
*Extreme Sleepiness / Lethargy	1			
Assess medication for:				
---Proper concentration in vial	C			
---Expiration date	C			
---Contamination / Particulate matter	C			
---Proper Desired Dosage (adult vs pediatrics)	C			
Prepares proper equipment:				
---Naloxone prefilled vial (2mg/2ml)	1			
---Luer-Lock Syringe (Shooter)	1			
---Nasal Mucosal Atomization Device (MAD)	1			
Identifies Contraindications:				
---Cardiopulmonary Arrest	C			
---Active Seizures	C			
---Nasal Trauma /Obstruction	C			
---Epistaxis	C			
Utilizes proper technique in administration:				
Insertion into Right nostril while pinching Left nostril	C			
Firmly pressing plunger to deliver 1mg/ml	C			
Insertion into Left nostril while pinching Right nostril	C			
Firmly pressing plunger to deliver other 1mg/ml	C			
Disposes syringe with medication in Sharps container	C			
Withdraws Atomizer and has patient inhale or "sniff"	1			
OR squeezes both nostrils together after administration	1			
Monitors patient for adverse reactions	C			
Monitors patient for signs of Withdrawal	C			
Verbalizes repeat dosage in 5 minutes if no change	1			
Verbalizes transportation of patient to the Hospital	1			
Verbalizes reporting for mandatory QA component to agency designee (Mr. John Smith) within 24 hours or emailing QADesignee@EMSAgency.com	C			
All "Critical" required & minimum points to pass: 7	12
